- Thursday 15th June from 7:30pm at Brisbane Square Library

<http://studentexchange.org.au/info-sessions/in-person-city-sessions/>

4. University of Queensland News

February 2017

Exercise & Nutrition Science - New prerequisite for 2018

From Semester One 2018 the Bachelor of Exercise and Nutrition Science (QTAC Code: 720102) will require an additional prerequisite of Maths A, B or C. This is in addition to the existing prerequisites of English and one of either Biology, Chemistry or Physics.

This change, first announced in 2015, will ensure that prospective students have the knowledge and skills required to succeed in a health science program at UQ.

Any prospective students missing subject prerequisites are encouraged to pursue pathway or bridging programs. More information on these options can be found [here](#).

Special entry - Bachelor of Dental Science for rural or remote students

Rural areas of Australia often have limited access to educational opportunities and dental services. To assist in addressing this ongoing challenge, 8 per cent of Bachelor of Dental Sciences (Honours) places in UQ's annual intake are now designated to applicants who come from a rural background.

What classifies as rural is determined by the Australian Standard Geographical Classification Remoteness Area system (ASGC-RA), which also categorizes various levels of remoteness, identified by their Remoteness Areas (RAs) rating. Students will need to live in a remote area for a set amount of time to be eligible.

This rural background sub quota for the Bachelor of Dental Science (Honours) will be available for students within the RA2 - RA5 category. This will include most Queensland regional cities, as well as rural areas near Ipswich and some parts of the Gold and Sunshine Coast hinterlands. Students can check the classification of their homes on the [Department of Health website](#).

Approved rural background applicants must still meet all the entry requirements of the Bachelor of Dental Science (Honours) program, including sitting the UMAT exam. However, to assist with meeting the ranking requirements, rural background applicants will be competing against a smaller cohort of applicants (for a smaller number of places) where the standard UMAT cut offs may not apply.

Further information on the scheme and eligibility requirements can be found on the [UQ website](#).

'Getting Ready for University' - Info Sessions for Year 10 parents

As a parent or guardian you play a vital role in helping your children make the best choices about their future and year 10 is the best time to start.

When teenagers select their senior subjects it is important that they select the right prerequisites for the university programs they are interested in.

Your child's dream is our mission and these interactive group sessions are designed to give you the necessary information to assist your child in making an informed choice about their future. All our interactive sessions are hosted by recent UQ professional staff graduates and run for approximately one hour with plenty of time set aside for any questions you may have.

Topics include:

- Understanding the university language;
- Key differences between high school and university;
- Pathways into your child's dream program;
- Scholarships; and
- QTAC, fees, accommodation and more!

Session Dates: week of 15-18 May 2017, St Lucia campus

Session times: TBC Watch this space

*Bookings essential

Please [email](#) us or call 07 3346 9872.

Australian parent who is interested in your child's higher education?

Currently, research is being undertaken at UQ to understand the preferences and decision-making of Year 11 and Year 12 students studying in high school.

If you are an Australian parent and keen on your child's higher education, you are invited to participate in this research project.

To be eligible to participate in the study, you must have a child studying in Year 11 or Year 12 in any high school in Queensland, and you, along with your child, must be willing to participate in the survey.

To take part in this research, contact Asma Qureshi [here](#).
