Mind game maestros

GOOD Shepherd Lutheran College is celebrating their recent win at the State Finals of the Tournament of the Minds (TOM) competition.

The secondary maths-engineering team's win will now see the students head to the Australian-Pacific Finals in Sydney on 17 October.

Overall, six Good Shepherd teams competed in the state finals of Tournament of the Minds (TOM) at Griffith University in Brisbane last month.

Four of the teams placed in the competition, with the Primary Division's Language Literature and Social Science teams being awarded Honours and the Secondary Division's Language Litera-

ture team also awarded Honours and the Maths Engineering team coming first.

Mathematics head Steve Miller-Metzner said the hard work and dedication of the students had paid off.

"They've really been rewarded for their dedication and determination," he said.

"I have no doubt that this young team will commit to giving their very best as it's been a big thrill for them to be part of continuing the legacy of success in TOM that Good Shepherd has established over many years."

TOM is a non-profit organisation that has been running challenges for students with a passion for learning and problem solving

Winners: Ben Rostron, Alex Winn, Rhiannon Ward, Tahli Roche, Gemma Sampson and Bailey Tobin.

for over 25 years.

"The enthusiasm, hard work and creativity shown by the students, especially when complemented with collaborative teamwork, is fantastic to witness and no doubt provides the keys for

success," said Mr Anthony Dyer, principal Good Shepherd Lutheran College.

"This is an awesome result and the whole college is just so proud of everyone involved."
