**Noosa Today—Year 8 Challenge Day  
15 March 2013**

### Students on challenge

Students from Good Shepherd Lutheran College recently experienced Year 8 Challenge Day, giving them the opportunity to get to know each other better, find new friends and explore what it is like to be out of their comfort zone.

The Challenge Day offers Year 8 students a range of physical and intellectual activities which are designed to encourage, test and develop their confidence, resilience and explore their leadership potential – all while having fun.

To get the most out of the day, the College brought in experts from a youth leadership development company who specialise in activities designed to challenge people's thinking and ways of working.

The day's activities concluded with the Year 8 students and their families coming together for a barbecue dinner, offering a time of fellowship with an emphasis on building the sense of community within the College.

Challenge Day gets the thumbs up
