- Left over candles are to be rebadged for fair or they can be customized
- Query whether there are any legal issues selling candles without ingredients and warnings – generally group said no
- Renee queried whether the Mothers Day stall should include DIY activities for children. Photo frames etc could be decorated by children and this would provide a cheaper option for the children
- It was agreed that we need better communication with the secondary school so they know when these type of events are available to them
- School sport camps held on those days took children off campus

**CLASS REPRESENTATIVES:**

- Class representatives need to be arranged earlier in the year from now on. Tim suggested it be done at the meet-the-teacher night. This will be the plan from now on

### **SECOND HAND UNIFORM SALE:**

- Renee queried whether we should do another second hand uniform sale. Karen advised it will be done as part of the vintage stall at the fair. We will need to go through the clothes to see what is still good. Query whether we can do anything with old uniforms that are too big and won't sell – can these go to charity? Deborah to help sort uniforms

### **WISHLIST REQUESTS:**

- Barbara Hook has requested jackets for the music group trip to NZ. Cost of this is \$2500. The P & F felt it may open up issues for future donations. Query whether the P & F fund the cost of the jackets and they give the jackets back for future use. This issue to be discussed further with Anthony.
